Summary of Recommended hygiene measures

Close family members of travelers should also follow these precautions. Recommended hygiene measures to reduce the risk of spreading respiratory infections should be followed including:

- Handwashing with soap and water or anti-bacterial hand sanitisers
- Avoid close contact with community members by avoiding shaking hands and hugging
- Avoid contact with anyone who has a fever and cough
- If you have a fever or cough, seek medical advice and share travel history with the medical practitioner

The purpose of this message is not to create fear and panic, but to ensure we take measures to minimize risks and stay healthy.
